

Parking Rules and Guidelines

We want to make parking convenient for our CUSTOMERS, and want to have turn-over parking for customers arriving later. Y to STUDENTS and FACULTY, we are privileged to be able to be on campus. DO NOT purchase a parking pass, it is only taking money from yourselves for the sake of not having to walk a short distance. DO NOT park in student/customer parking, or we will be hiring security, that will cause booth space fees to increase, and parking citations will go up.

Farmers- will be allowed to have their vehicles with them. Farmers have a LOT of inventory to set up in the mornings and need to keep their vehicles with them.

Food Vendors- If you have been told to not park with your booth space, then food vendors will need to **park down by the soccer fields**. * Vendors may NOT park in the customer parking area. * If the food vendor is handicapped, read the '**Handicapped Parking for Vendors**'.

Retail Vendors- Need to **park down by the soccer fields** NOT BY THE TENNIS COURT. Vendors may NOT park in the customer parking area. *If the retail vendor is handicapped, read the '**Handicapped Parking for Vendors**'.

Handicapped Parking for Vendors- please park in the customer parking lot ACROSS THE STREET from the gym, in the back row. DO NOT park in the lot next to the gym.

***Only vendors with trailers may park on the edge of the dirt before the hill down to the soccer fields.**

Failure to follow these guidelines can result in vendors being required to purchase a quarterly parking pass from the college and STILL have to park down by the soccer fields, then will force us to write citations to violators. You are here to run a business. Do your part- the rules are made for a very good reason. Help us help you be as successful as possible. It doesn't make any sense to occupy spaces that could potentially be for a customer that is here to enjoy their day and buy **YOUR** goods.
